COLLECTION AUTHORITY This survey is being conducted under the The Census and Statistics Act, No.24 of 1983 of St Vincent and the Grenadines which makes provision for the information requested a legal requirement, therefore MANDATORY. The Statistics Act requires that a representative of the company or organisation to which this form is addressed completes and returns this form to the St Vincent and the Grenadines Statistical Office. This survey covers the activity of businesses in St Vincent and the Grenadines, including foreign owned businesses. The business unit for the survey is the company, partnership, sole proprietorship, etc. to which the form has been addressed unless specified otherwise on the front page of the form.

CONFIDENTIALITY The Census and Statistics Act of St Vincent and the Grenadines also guarantees strict confidentiality of the information provided via this form. Individual company data is not published or disseminated.

PURPOSE The BOP forms are used to gather information on the regional and international transactions and positions of your establishment. This in turn will be used to compile the balance of payments and international investment position statistics for St Vincent and the Grenadines. These statistics are published annually and are available from the Statistical Office or on the website of the Eastern Caribbean Central Bank at : www.stats.gov.vc or www.eccb-centralbank.org/statistics

FILING OF REPORTS Please return the completed form via email by APRIL 30, 2018 to:
Statistics Mailbox svg.stats@mail.gov.vc

or by printing and returning in an enclosed envelope.

ASSISTANCE Notes for completing this form are attached. For queries or assistance regarding the form, please contact:

ANNUAL BALANCE OF PAYMENTS SURVEY: 2017
MONEY TRANSFER COMPANIES
ST VINCENT AND THE GRENADINES

A non-resident is any individual, company, or other organization ordinarily domiciled in an economy other than St Vincent and the Grenadines regardless of their citizenship. This also includes persons who live or work in St Vincent and the Grenadines for less than one year.

Students, medical patients and diplomats however are exceptions and are considered non-residents regardless of how long they stay. As such, they should be included in your transactions with non-residents reported.

All values should be reported in Eastern Caribbean dollars (EC\$). Foreign currencies should be converted to EC\$ at the midpoint of the buy and sell rates applicable on the date of the transaction. **Some of the data requested (particularly by region) may not be readily available from your records. In these cases, careful estimates will be adequate. If audited data are not available, unaudited estimates are acceptable. We would prefer that the form be completed and submitted electronically. A copy should be retained for your records.**

Please ensure that the data reported is for the year 2017. You are required to report data for the calendar year. If this is not possible, use the data for your financial year that covers most of the period being requested. Additional notes for completing this form are attached.

Thank you. Your cooperation is greatly appreciated. Accurate balance of payments and IIP depend on it!

Notes for Completing B.O.P. FORM: 5

Please read carefully

Transactions in foreign currencies should be converted to EC\$ at the midpoint of the buy and sell rates applicable on the date of the transaction. US\$ 1 = EC\$ 2.7

ECCU: Eastern Caribbean Currency Union

ECCU Countries: Anguilla, Antigua and Barbuda, Dominica, Grenada, Montserrat, St Kitts and Nevis, Saint Lucia and St Vincent and the Grenadines

OTHER CARICOM COUNTRIES: The Bahamas, Barbados, Belize, Guyana, Haiti, Jamaica, Suriname, Trinidad and Tobago. Associate members are: Bermuda, British Virgin Islands, Cayman Islands, Turks and Caicos Islands.

DEFINITION OF RESIDENTS AND NON-RESIDENTS

Non-resident

A non-resident is any individual, company, or other organization ordinarily domiciled in an economy other than St Vincent and the Grenadines regardless of their citizenship. This also includes persons who live or work in St Vincent and the Grenadines for less than one year.

Students, medical patients and diplomats however are exceptions and are considered non-residents regardless of how long they stay. As such, they should be included in your reported transactions with non-residents.

Residents

A resident is any individual, company, or other organization ordinarily domiciled in St Vincent and the Grenadines regardless of their citizenship. This also includes persons who live or work or intend to live or work in St Vincent and the Grenadines for more than one year.

Please note that subsidiaries of foreign companies in St Vincent and the Grenadines are residents of St Vincent and the Grenadines. Similarly, foreign subsidiaries owned by companies in St Vincent and the Grenadines are non-residents.

If you are not sure of the residence of a company, please contact us so that we may determine its status.

STRUCTURE OF B.O.P. FORM: 5

Part A

Part A requests your company's earnings from non-resident individuals, companies or organisations. You should also indicate how much of these earnings were received from countries of the ECCU or CARICOM. Receipts from students, diplomats, medical patients and international and regional organisations in country should be included as part of receipts from non-residents.

Part B

Part B requests payments made by your company to non-resident individuals, companies or organisations. You should also indicate how much of these payments were made to countries of the ECCU or CARICOM. Payments to students, diplomats, medical patients and international or regional organisations should be included as part of payments to non-residents.

N.B. For Parts A and B, you are required to report the total value of the services rendered or purchased during the reporting period even if payments were made in a later period.

Transactions with residents of St Vincent and the Grenadines should be excluded from the total and from the breakdown of ECCU and other CARICOM countries.

Part C

Part C requests data on stock of financial assets and liabilities between your company and non-residents. It requests information regarding the financial claims of your company on non-residents and the liabilities of your company to non-residents. The form requests data on stock positions, financial transactions and valuation changes.

DEFINITIONS

Interest receipts and Payments

For interest, please report the total value of interest (payable and receivable) that accrued during 1905, even if only some payment were made during the year. Interest includes discounts. A discount is the difference between the value of a financial instrument when it is issued and its final redemption value.

The difference between the interest accrued and interest payable should be recorded as a financial transaction in Part C in the instrument to which the interest relates. This difference will essentially be the actual cash payment made for the reporting period.

Debt Instruments consist of currency and deposits, debt securities, loans, trade credits, insurance technical reserves, pension and related entitlements, provision for calls under standardized guarantees, and other accounts receivable/payable. The term debt instrument is applicable to both the liability and the corresponding claim.

For loans, currency and deposits, trade credits and advances and other accounts payable/receivable, please report on a nominal value basis (after allowing for any changes that may result from changes in exchange rates). Nominal value represents the value of funds advanced (positions) less any repayments exclusive of interest payments plus any outstanding accrued interest less any payments of accrued interest from a previous period (transactions).

Trade credit and advances comprises of credit extended directly by the suppliers of goods and services to their customers and advances for work that is in progress (or is yet to be undertaken) and prepayment by customers for goods and services not yet provided. That is, accounts receivable (payable) for goods and services.

Loans include loans and financial leases. Short-term loans are those with original maturities of less than or equal to 12 months. Long-term loans are those with original maturities of more than 12 months.

Currency and Deposits: Deposits include checking accounts, savings accounts, and other time deposits held abroad. Currency include foreign currency not held in commercial banks.

Other accounts receivable/payable: Other accounts receivable/payable include accounts receivable or payable other than those included in trade credit and advances or other instruments. Please list from largest to smallest. You may include an "other" line item to sum the residual if you do not have sufficient line space to list all items.

POSITIONS, TRANSACTIONS, OTHER CHANGES AND INCOME

Opening position refers to the value of the claims and liabilities of your company and its resident subsidiaries at the beginning of the year. **The opening positions you report should agree with the closing positions you reported for the previous year. If this is not the case, please provide data for the previous year.**

Transactions

Financial transactions are transactions relating to the acquisition or disposal of your company's financial claims on, or liabilities to, non-residents. Purchases of stock made by your company (and its subsidiaries) in non-resident companies, purchases of your company's shares by non-residents, issuances and purchases of long- and short-term debt securities, increased deposits in bank accounts, and drawdowns of loans are examples of transactions that increase assets or liabilities. Sales of stock by your company (and its subsidiaries) in non-resident companies, sales of your company's shares by non-residents, redemptions and sales of long- and short-term debt securities, withdrawals from bank accounts, and repayments of loans are examples of transactions that decrease assets or liabilities.

Financial transactions and income should be recorded on a gross basis—that is, before the deduction of commissions on receipts (or addition of commissions on payments), brokerage fees, and withholding taxes, which are to be recorded in parts A and B if paid to or received from a non-resident.

The difference between the dividends or interest due and dividends or interest paid should be recorded as a financial transaction in Part C in the instrument to which the interest relates. In the case of loans, this difference is essentially the arrears accrued for the reporting period. For e.g., in the case of interest payments on loans; you are required to report the total interest due in Part B of the form under "interest expense on loans and advances" (i.e. interest paid plus interest payable/arrears). You are also required to report the interest payable/arrears in the transactions column in Section C (ii) under liabilities long term or short term loans. In this line item, you would also be required to report any principal repayments made. Any payments made would be recorded as a negative number as it would represent a decline in liabilities.

In the case of transactions for short and long term loans, please report only the principal repayments and not the interest payments. The interest payments should be reported in Part B of the form. Interest arrears accumulated/paid however should be reported as part of transactions in Part C as an increase/decrease in assets and or liabilities.

An increase in assets or liabilities should be reported as a positive number. A decline in assets or liabilities should be recorded as a negative number.

Valuation and other Changes: **Valuation changes** are changes in the value of your companies assets or liabilities that may arise due to exchange rates including exchange-rate-related gains and losses, revaluation of fixed assets, and changes in market prices of financial assets and liabilities. **Other Changes** are caused by reclassification of items and write-downs.

Closing position refers to the value of the claims and liabilities of your company and its subsidiaries at the end of the year. The closing position should equate to the opening balance + transactions + valuation and other changes.
